

MONTANA FISH AND GAME DEPARTMENT
FISHERIES DIVISION
HELENA, MONTANA

JOB COMPLETION REPORT
INVESTIGATIONS PROJECTS

State of Montana

Project No. F-27-R-2

Name Rock Creek Creel Census

Job No. II

Title Winter Census

Period Covered November 15, 1960 to April 30, 1961

This job was set up in anticipation of conducting a creel census to obtain estimates of total fishing effort and total catch of whitefish from the 40-mile study section on Rock Creek during the 1960-1961 winter whitefish season.

Due to the work load imposed by other projects, particularly the creel census on Georgetown Lake which was conducted during the winter of 1960-1961, this job (F-27-R-2) was not undertaken.
